

The healthier way to drink water

Blue direct's service to the healthcare sector.

blue direct
THE WATER PEOPLE

"BUPA Leicester Hospital use Blue direct for all their drinking water machines. The machines meet all our needs and we are very pleased with the quality and taste of the filtered water. If there are queries or problems they are always dealt with very promptly and Blue direct are straight on the case. I would be happy to recommend Blue direct to other companies."

Emma Smith,
BUPA

"The Cobham Clinic at the Luton & Dunstable NHS Trust installed Blue direct equipment that provides very clean tasting and refreshing water. We used to use bottled water but switched because it was more cost-effective, there are no storage problems, and the bottles were really difficult to lift... Moreover, the Blue direct service is extremely prompt whenever we need anything. I am pleased to recommend Blue direct."

Kirstie Nicholls,
Luton & Dunstable NHS Trust

Other reference customers are available on request.

The healthier way to drink water

Infection control is a big issue for today's healthcare providers. Are you providing your staff, patients and visitors with safe, hygienic, chilled drinking water?

Blue direct helps hospitals and healthcare providers benefit from the latest "direct chill" and UV technology to reduce health and safety risks from bacterial contamination.

The Best Water Comes out of the Blue

Blue direct are one of the leading suppliers to local authorities, clinics and hospitals in the UK. Blue direct is also a member of the European Point-of-use Drinking Water Association (EPDWA), the industry trade body.

Blue direct offer one of the widest ranges of equipment in the UK. As experts in point-of-use water systems, Blue direct have selected equipment most suited to the healthcare environment:

- **Quality Approved Equipment** – our equipment is approved by the Water Regulations Advisory Scheme (WRAS) the UK mark of safety and quality for water coolers.
- **No tanks and UV screening** – this removes the issue of standing water and contamination from airborne bacteria.
- **Attractive, easy to use, easy to clean, durable water dispensers**
- **Guaranteed Service Levels** – Blue direct are the only company in the UK to guarantee their standards of equipment, responsiveness, maintenance and repair – see back page.

Free, No Obligation, Site Survey

Many health professionals are not sure how fresh filtered drinking water can benefit them. Blue direct offer a free, no obligation, site survey. Taking only 30 minutes, one of our experts will give you an overview of how we can help you to reduce contamination risks, and improve on the service of any existing suppliers.
